Blakely City Council Minutes

Work Session
March 2, 2021, City Hall, 5:00 P.M.

Mayor Wimbush called the meeting to order.

Chau Nguyen with Electric Cities of Georgia gave a presentation about our current rate structure for solar energy.

Mr. John Thro with Sun Pro Solar discussed his background and his opinions of the current solar rate structure. He suggested sitting down with the Mayor and any others interested to talk about specific numbers.

There was some discussion back and forth between Chau and John. Chau informed the council that is was possible for the City to enter a solar agreement with MEAG.

Chief Will Caudill addressed the council regarding the need to purchase some patrol rifles. we only have 4 or 5 and those do not have and cannot be fitted for optics. The rifles we have also came with some of the officers from Public Safety and there could be an issue with ownership.

The work session was then closed.
